**Subject:** TPC Group Fire - Reporting Period 4

Good morning,

Please find the attached maps and data table for reporting period 4 (11/30 0600 – 12/1 0600).

Handheld air monitoring was conducted from November 30, 2019 at 06:00 to December 1, 2019 at 06:00 at 82 locations in the communities surrounding the TPC Group facility in Port Neches, Texas. The air monitoring results were reported below the screening level at all locations for particulates, total volatile organic compounds (VOCs) and for 1,3-butadiene.

5 Water samples (4 with one duplicate) were collected at 4 locations.

ASPECT flew with no detections.

Thanks,

**David Cook**
